GHS earns perfect score

Gilbert, S.C. — Gilbert High School earned a perfect score on the Modern Language Program Assessment Report.

The school's world language teachers, Tonya Allen, Yelena Bibik, Eve Bostic and Brandi Humble, submitted an in-depth assessment to the S.C. Department of Education. Their report demonstrated how the school meets the five world language standards.

The standards include allowing all students the opportunity to study a world language, participating in world language professional development and having a standards-driven and performance-based curriculum that supports the five goals of language: communication, cultures, connections, comparisons and communities.

Gilbert High School's perfect assessment score will be reported on the school report card.
