South Carolina metal sculptor helps PHMS students create work of art

Pleasant Hill Middle Artist in Residence and Metal Sculptor Bob Doster of Lancaster helps students create a metal sculpture of the school's mascot, a cougar. Doster helped students design the sculpture and use a laser cutter to cut out the image.

PHMS brought Doster to work with students through a South Carolina Arts Commission Arts in Education Arts in Basic Curriculum (ABC) Advancement Grant.

A Pleasant Hill Middle cougar sculpture created by Pleasant Hill Middle Artist in Residence and Metal Sculptor Bob Doster and PHMS students now stands at the front doors of the school.
